## Value proposition

# Value proposition

***SAECO optimizes professional technologies in a mini Table-Top machine concept.***

Smart solution adaptable in every professional environments

Reliability and durable performances

Flexibility and versatility to adapt to different markets requests

Value for money

# Smart solution adaptable in every professional environment

Very compact size: **350W x 550H x 550D mm**.  
Iperautomatica Premium can combine the freshness and ease of use of the **coffee beans** with the wide beverage offer that **solubles** can bring in a compact space.

This makes the machine the smartest choice in many professional environments like offices, hotel breakfast rooms, canteens, etc...

# Reliability and durable performances

Iperautomatica Premium is equipped with professional components, such as:

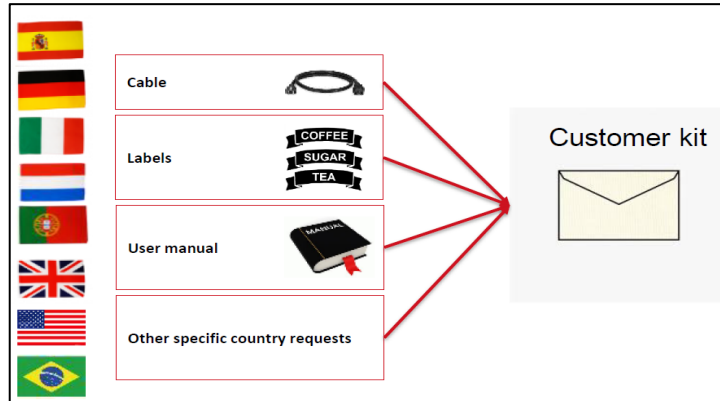

- **Brewing groups** available, **9 grams** capacity
- **Solubles module** with 2 powder canisters
- **1 mixer**
- Professional **motors** and **grinders**
- Professional **boiler**

These elements ensure high in-cup quality and reliable performances.

# Flexibility and versatility to adapt to different markets requests

## EXTRA KITS

(details in slide 19)

Iperautomatica Premium can be enriched with Extra Kits that add features to the machine.

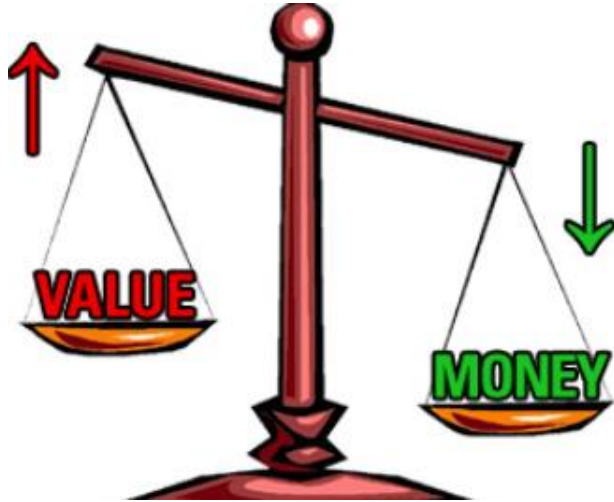

Some examples of Extra Kits are:

- Water net attachment kit
- Extra cup height grid
- Hot water extra electro-valve

Iperautomatica Premium can be easily rolled-out in several Countries thanks to the **Customer Kit approach**, which is:

- **Standard product code** (depending on the needed voltage)
- **Customer kit with:** translated user manual, specific Country plug, translated beverages labels, any other customization requests.

# Value for money

Iperautomatica Premium price positioning is very attractive, although the machine offers valuable aspects, such as:

- Different sizes brewing groups
- Solubles module
- Large beverage selection and fully customizable receipts
- Possibility to attach the machine to the water net
- Compatibility with payment systems

---

## Benefits

# Brewing Groups

9 gr Group

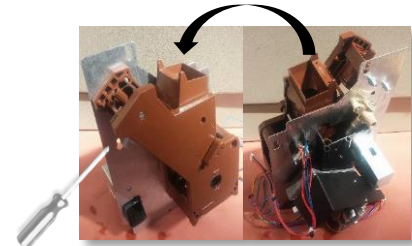

Iperautomatica Premium is available with brewing group:

- 9 grams

The groups are coming from Vending machines, so very long-lasting in performance.

The Coffee module (brewing group, metal plate, gear motor) is very easy to be taken out, just with a screwdriver.

# Solubles module

1 soluble  
canister

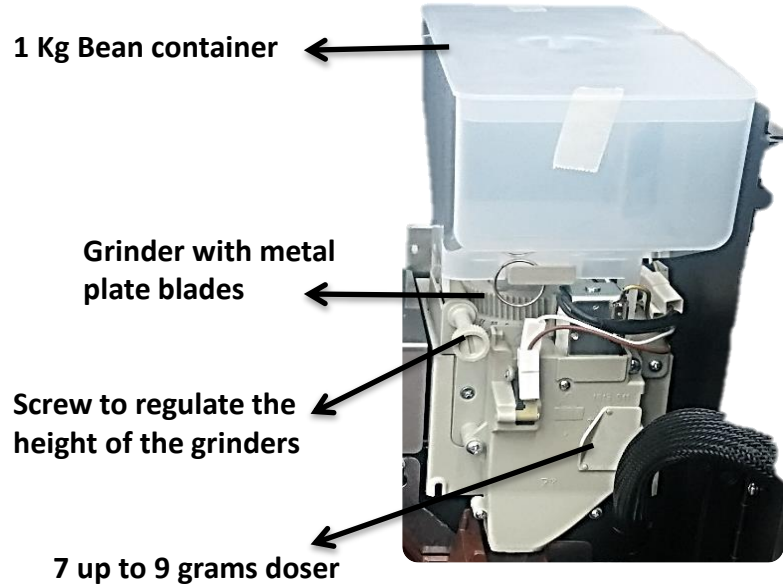

Mixer

Iperautomatica Premium solubles module is  
composed of:

- **2 powder canisters** of 1 liter both

2 soluble  
canister

# Grinding Module and motors

Iperautomatica Premium has a grinding area that ensures the best preparation of coffee with beans.

The metal plate grinders are adjustable to find the desired thickness of coffee powder.

The doser calibrates the desired quantity of coffee powder.

# Boiler

Iperautomatica Premium has inside a boiler of 300 cc capacity with heating element 1400 W

It is can be open, for an easy checking of the inner part in case of problems.
